

**Index of Issues:** January, pp. 1-106; February, pp. 107-292; March, pp. 293-438; April, pp. 439-606; April Supplement, pp. S1-S66; May, pp. 607-760; June, pp. 761-922.

## INDEX OF SUBJECTS

### A

- A6, immunostaining of paraffin-embedded tissues and, 188  
Abnormal clot quality test, antivenom therapy in Russell's viper bite and, 412  
AccuProbe, rapid conventional tests versus, for identification of *Streptococcus pneumoniae* and, 271  
Accuracy, of portable blood glucose monitoring, effect of glucose level and prandial state on, 247  
Acquired immunodeficiency syndrome  
bone marrow in  
Kaposi's sarcoma in, 561  
morphology and clinical correlation of, 63  
intranodal leiomyoma and, 858  
molecular pathology and diagnosis of infectious diseases and, S8  
mycobacteremia and, rapid diagnosis based on inclusions in peripheral blood smear and, 369  
*Pneumocystis carinii* infection and  
presenting as necrotizing thyroiditis and hypothyroidism, 489  
widespread dissemination of, aerosolized pentamidine treatment and, 96  
spindle cell pseudotumor attributable to *Mycobacterium avium-intracellulare* in, positive staining for desmin and, 271  
Activated partial thromboplastin times  
duplicate testing of, 77  
measurement from capillary sample of whole blood, 222  
monitoring of heparin therapy and, *in vivo* effect of Factor VIII on, 271  
Adenocarcinoma  
esophageal, D-14 expression in, 271  
monoclonal antibody 44-3A6 in diagnosis of, 315  
prostatic, differential diagnosis of, morphologic characteristics of nucleoli in, 271  
of urinary bladder, 13  
of uterine cervix, human papillomavirus types 16 and 18 in, 647  
Adenomatoid malformation, cystic, congenital, bronchoalveolar carcinoma of lung and, 889  
Adenomatous hyperplasia, in human cirrhotic livers, argyrophilic nucleolar organizer regions and alpha-fetoprotein in, 850  
Adenovirus encephalitis, pediatric, 271  
ADP, platelet aggregation by, prevention by ascorbic acid, 271  
Adrenal cortical neoplasms, pediatric, clinicopathologic study with emphasis on prognostic factors and, 271  
Adrenocortical hyperplasia, bilateral primary pigmented, nodular, psammomatous melanotic schwannoma and, 484  
Alanine aminotransferase, serum, effects of one-month physical training program on, 271  
Algorithms, S50  
Alkaline phosphatase, bone-like variant of, 749  
Alpha-1-antichymotrypsin, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
Alpha-fetoprotein, in adenomatous hyperplasia, in human cirrhotic livers, 850

- Alpha-lipoprotein, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
Alpha-2-Zn-glycoprotein, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
Aluminum, rapid microscopic detection of malaria parasites in blood smears and, permanently stained with aluminum and morin, 424  
Amniotic fluid, isolation of *Ureaplasma urealyticum* in, adverse outcome in pregnancy after, 271  
Amplification, PCR, from paraffin-embedded tissues, effects of fixative and fixation time and, 117  
Ampulla of Vater, neuroendocrine carcinoma of, 51  
Anaerobic incubation, survival of *Gardnarella vaginalis* in human urine and, 234  
Anemia, ceftazidime-induced hemolysis with drug-dependent antibodies, reactive by immune complex and drug absorption mechanisms, 393  
Aneuploidy, in benign seminal vesicle epithelium, 271  
Antibiotics, ceftazidime-induced hemolysis with drug-dependent antibodies and, reactive by immune complex and drug absorption mechanisms, 393  
Antibodies. *See also* Monoclonal antibodies; specific antibodies  
antiendothelial, serologic characterization of Rocky Mountain spotted fever and, 725  
antiphospholipid, serologic characterization of Rocky Mountain spotted fever and, 725  
antisperm, detection using concurrent cytofluorometry and indirect immunofluorescence microscopy, 242  
drug-dependent, ceftazidime-induced hemolysis with, reactive by immune complex and drug absorption mechanisms, 393  
marking paraffin-embedded leukocytes, 607  
Anticardiolipin, serologic characterization of Rocky Mountain spotted fever and, 725  
Anti-CD56 reactivity, in neuroendocrine neoplasms, 271  
Antienveloped antibodies, serologic characterization of Rocky Mountain spotted fever and, 725  
Antigenic sites, preservation after fixation in tissue, 271  
Antigen release, from breast carcinoma, implications of, 271  
Anti-HDV, anti-delta EIA kit for detection of, 240  
Antiphospholipid antibodies, serologic characterization of Rocky Mountain spotted fever and, 725  
Antisperm antibodies, detection using concurrent cytofluorometry and indirect immunofluorescence microscopy, 242  
Antivenom therapy, in Russell's viper bite, 412  
Apoproteins, serum levels of, as indicators for coronary artery disease, severely angiographically assessed, 597  
Appendiceal carcinoids, histogenesis of, 271  
Argyrophilic nucleolar organizer regions, in adenomatous hyperplasia, in human cirrhotic livers, 850  
Arias-Stella reaction, in fallopian tube epithelium, 892  
Artificial intelligence, S50  
Ascites, carcinoma with, false-positive immunostaining of normal epithelia and, fluid preparations of antimelanoma monoclonal antibody HMB45 and, 454  
Ascorbic acid, prevention of platelet aggregation by norepinephrine, collagen, ADP, and ristocetin and, 271

Page numbers beginning with "S" denote articles in the April supplement.

**Index of Issues:** January, pp. 1-106; February, pp. 107-292; March, pp. 293-438; April, pp. 439-606; April Supplement, pp. S1-S66; May, pp. 607-760; June, pp. 761-922.

## INDEX OF SUBJECTS

### A

- A6, immunostaining of paraffin-embedded tissues and, 188  
Abnormal clot quality test, antivenom therapy in Russell's viper bite and, 412  
AccuProbe, rapid conventional tests versus, for identification of *Streptococcus pneumoniae* and, 271  
Accuracy, of portable blood glucose monitoring, effect of glucose level and prandial state on, 247  
Acquired immunodeficiency syndrome  
bone marrow in  
Kaposi's sarcoma in, 561  
morphology and clinical correlation of, 63  
intranodal leiomyoma and, 858  
molecular pathology and diagnosis of infectious diseases and, S8  
mycobacteremia and, rapid diagnosis based on inclusions in peripheral blood smear and, 369  
*Pneumocystis carinii* infection and  
presenting as necrotizing thyroiditis and hypothyroidism, 489  
widespread dissemination of, aerosolized pentamidine treatment and, 96  
spindle cell pseudotumor attributable to *Mycobacterium avium-intracellulare* in, positive staining for desmin and, 271  
Activated partial thromboplastin times  
duplicate testing of, 77  
measurement from capillary sample of whole blood, 222  
monitoring of heparin therapy and, *in vivo* effect of Factor VIII on, 271  
Adenocarcinoma  
esophageal, D-14 expression in, 271  
monoclonal antibody 44-3A6 in diagnosis of, 315  
prostatic, differential diagnosis of, morphologic characteristics of nucleoli in, 271  
of urinary bladder, 13  
of uterine cervix, human papillomavirus types 16 and 18 in, 647  
Adenomatoid malformation, cystic, congenital, bronchoalveolar carcinoma of lung and, 889  
Adenomatous hyperplasia, in human cirrhotic livers, argyrophilic nucleolar organizer regions and alpha-fetoprotein in, 850  
Adenovirus encephalitis, pediatric, 271  
ADP, platelet aggregation by, prevention by ascorbic acid, 271  
Adrenal cortical neoplasms, pediatric, clinicopathologic study with emphasis on prognostic factors and, 271  
Adrenocortical hyperplasia, bilateral primary pigmented, nodular, psammomatous melanotic schwannoma and, 484  
Alanine aminotransferase, serum, effects of one-month physical training program on, 271  
Algorithms, S50  
Alkaline phosphatase, bone-like variant of, 749  
Alpha-1-antichymotrypsin, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
Alpha-fetoprotein, in adenomatous hyperplasia, in human cirrhotic livers, 850

- Alpha-lipoprotein, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
Alpha-2-Zn-glycoprotein, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
Aluminum, rapid microscopic detection of malaria parasites in blood smears and, permanently stained with aluminum and morin, 424  
Amniotic fluid, isolation of *Ureaplasma urealyticum* in, adverse outcome in pregnancy after, 271  
Amplification, PCR, from paraffin-embedded tissues, effects of fixative and fixation time and, 117  
Ampulla of Vater, neuroendocrine carcinoma of, 51  
Anaerobic incubation, survival of *Gardnarella vaginalis* in human urine and, 234  
Anemia, ceftazidime-induced hemolysis with drug-dependent antibodies, reactive by immune complex and drug absorption mechanisms, 393  
Aneuploidy, in benign seminal vesicle epithelium, 271  
Antibiotics, ceftazidime-induced hemolysis with drug-dependent antibodies and, reactive by immune complex and drug absorption mechanisms, 393  
Antibodies. *See also* Monoclonal antibodies; specific antibodies  
antiendothelial, serologic characterization of Rocky Mountain spotted fever and, 725  
antiphospholipid, serologic characterization of Rocky Mountain spotted fever and, 725  
antisperm, detection using concurrent cytofluorometry and indirect immunofluorescence microscopy, 242  
drug-dependent, ceftazidime-induced hemolysis with, reactive by immune complex and drug absorption mechanisms, 393  
marking paraffin-embedded leukocytes, 607  
Anticardiolipin, serologic characterization of Rocky Mountain spotted fever and, 725  
Anti-CD56 reactivity, in neuroendocrine neoplasms, 271  
Antienveloped antibodies, serologic characterization of Rocky Mountain spotted fever and, 725  
Antigenic sites, preservation after fixation in tissue, 271  
Antigen release, from breast carcinoma, implications of, 271  
Anti-HDV, anti-delta EIA kit for detection of, 240  
Antiphospholipid antibodies, serologic characterization of Rocky Mountain spotted fever and, 725  
Antisperm antibodies, detection using concurrent cytofluorometry and indirect immunofluorescence microscopy, 242  
Antivenom therapy, in Russell's viper bite, 412  
Apoproteins, serum levels of, as indicators for coronary artery disease, severely angiographically assessed, 597  
Appendiceal carcinoids, histogenesis of, 271  
Argyrophilic nucleolar organizer regions, in adenomatous hyperplasia, in human cirrhotic livers, 850  
Arias-Stella reaction, in fallopian tube epithelium, 892  
Artificial intelligence, S50  
Ascites, carcinoma with, false-positive immunostaining of normal epithelia and, fluid preparations of antimelanoma monoclonal antibody HMB45 and, 454  
Ascorbic acid, prevention of platelet aggregation by norepinephrine, collagen, ADP, and ristocetin and, 271

Page numbers beginning with "S" denote articles in the April supplement.

- Aspiration cytology, papillary carcinoma of thyroid and, with mucopidermoid features, 175  
 Atherosclerosis, severely angiographically assessed, serum apoprotein levels as indicators for, 597  
 Autoantibodies, correlations between, in large reference laboratory population, 271  
 Autoimmunity, ceftazidime-induced hemolysis with drug-dependent antibodies and, reactive by immune complex and drug absorption mechanisms, 393  
 Automation  
     automated immunohistochemical estrogen receptor and, in fixed embedded breast carcinomas, 335  
     hematology and, Coulter STKS, field evaluation of, 207  
     relevance of delta checks for error detection in highly automated laboratories and, 271  
     specimen identification by bar-code label printer and, 271  
 Autopsy  
     in academe, S42  
     of stillborns, diagnostic yield in, 271  
 Autotransfusion, in trauma, comparison of systems for, 271

**B**

- Babesiosis, 774  
 Bacterial identification systems  
     AccuProbe versus rapid conventional tests for, *Streptococcus pneumoniae* and, 271  
     rapid, comparison of, 271  
 Bacterial infection, bartonellosis and, S58  
 Bacteriuria, effect on quantitation of benzoylecgonine, by gas chromatography mass spectrometry, 271  
 Ballistic injury, cytologic manifestations of, 660  
 Bar-code label printer, automation of specimen identification by, 271  
 Barrett's esophagus, D-14 expression in, 271  
 Bartonellosis, S58  
 Basal cell keratin, clear cell cribriform hyperplasia of prostate and, immunohistochemical and DNA flow cytometric study of, 446  
 Bayesian classification, nuclear grading of breast carcinoma and, by image analysis, S29  
 B-cells  
     phenotype of, My4 antibody staining and, non-Hodgkin's lymphoma and, 363  
     precursors of, in normal pediatric bone marrow, 816  
 Bence Jones, proteinuria/proteinemia, isolated, clinical spectrum of, 271  
 Benign seminal vesicle epithelium, aneuploidy in, 271  
 Benzoylecgonine, quantitation of, effect of bacteriuria on, by gas chromatography mass spectrometry, 271  
 Biochemical estrogen receptor assays, comparison and evaluation of scoring techniques with immunohistochemical techniques and, 271  
 Biopsy  
     bone marrow, in evaluation of fever of unknown origin, 271  
     fine-needle aspiration. *See* Fine-needle aspiration biopsy  
     of lymph nodes, glycol methacrylate embedding and, 150  
     pituitary, lymphocytic hypophysitis and pulmonary sarcoidosis and, 506  
     serum enzyme alterations in chronic muscle disease and, 402  
 Biotinylated probes, detection of human papillomavirus DNA by *in situ* hybridization with, on Papanicolaou's smears, 475  
*Bipolaris*, *in vitro* susceptibility patterns of clinical isolates of, phaeohyphomycosis and, 271  
*Blastocystis hominis*, morphology and frequency of occurrence of, 271  
 Blood, peripheral. *See* Peripheral blood  
 Blood cells, identification of human papillomavirus DNA sequences in peripheral mononuclear cells and, 540  
 Blood coagulation, mixing study reagents and dilution effect in lupus anticoagulant testing and, 408  
 Blood count, Coulter STKS, field evaluation of, 207  
 Blood glucose monitoring, portable  
     accuracy of, effect of glucose level and prandial state on, 247  
     diabetic patients and, outcomes of, 112  
 Blood group antigens, in esophageal squamous carcinoma, 844  
 Blood groups, red cell survival studies with anti-Tc<sup>a</sup> and, 87  
 Blood smear, peripheral, rapid diagnosis of mycobacteremia and, in AIDS, 369  
 Blood transfusion  
     autotransfusion in trauma and, comparison of systems for, 271  
     concurrent blood use review for, effectiveness of, 271  
     febrile reactions to  
         efficacy of leukopoietic platelets for prevention of, 733  
         platelet transfusions and, 609  
     hemolytic transfusion reaction mimicked by myoglobinemia and, 271  
     HTLV-I associated myopathy after, in hairy cell leukemia, 72  
 Blood typing, discrepant, Munchausen syndrome by proxy documented by, 232  
 Blood usage  
     concurrent blood use review for blood transfusions and, effectiveness of, 271  
     laboratory information system for, 389  
 Bone, metastatic small cell tumor of, with 'true' rosettes and glial fibrillary acidic protein positivity, 166  
 Bone isoenzyme, bone-like variant of alkaline phosphatase and, 749  
 Bone marrow  
     acute suppression of, expansion of immature thymic precursor cells in peripheral blood after, 824  
     after treatment with recombinant human interleukin-3, 355  
     biopsy of, in evaluation of fever of unknown origin, 271  
     hematopoietic elements in cerebrospinal fluid in children and, 532  
     in HIV-related disease, morphology and clinical correlation of, 63  
     Kaposi's sarcoma in, in acquired immunodeficiency syndrome, 561  
     mycobacteremia and, in AIDS, rapid diagnosis based on inclusions in peripheral blood smear and, 369  
     pediatric, normal, B-cell precursors in, 816  
     transplantation of, probe to repeat sequence of Y chromosome and, detection of host cells in peripheral blood and, 201  
 Bone marrow aspirate, glycol methacrylate embedding and, 150  
*Bordetella pertussis*, lymphocytosis accompanying, morphologic and immunophenotypic assessment of, 809  
 Breast, fibroadenoma of, carcinoma arising within, 614  
 Breast cancer  
     antigen release from, implications of, 271  
     correlation between *neu*-protein overexpression, histologic grade, lymph node involvement, and steroid receptor status in, 271  
     detection of Ki-67 proliferation rate in, correlation with clinical and pathologic features, 30  
     fixed embedded, automated immunohistochemical estrogen receptor in, 335  
     fluorescent cytochemical detection of estrogen and progesterone receptors in, in breast fine-needle aspirates, 35  
     matrix-producing, 623  
     metaplastic, 623  
     nuclear grading of, by image analysis, classification by multivariate and neural network analysis and, S29  
     with pseudosarcomatous metaplasia, 623  
     relationship between DNA ploidy status, expression of HER-2-*neu* oncogene, and presence of hormone receptors in, 271

- serum proteins synthesized by, prognostic value of, 835  
*in vitro* labeling with bromodeoxyuridine and, commercial kit for, 41
- Breast-conserving therapy, carcinoma arising within fibroadenomas of breast and, 614
- Breast disease, proliferative, clinically occult, identification of, in women with family history of breast cancer, 157
- Breast tumors, mucocle-like, 875
- Bromodeoxyuridine, *in vitro* labeling of breast carcinomas with, commercial kit for, 41
- Bronchoalveolar carcinoma, congenital cystic adenomatoid malformation and, 889
- Bronchoalveolar lavage  
 cytodiagnosis of *Pneumocystis carinii* in fluid and, Papanicolaou's stain and Gomori methenamine silver stain compared for, 583  
 lipid-laden macrophage index applied to specimens from, cytologic diagnosis of aspiration pneumonia by, 271
- B72.3, malignant peritoneal mesothelioma in childhood and, with long-term survival, 493
- Bull's algorithm, moving average algorithm as quality control procedure and, Technicon System H6000 and, 218

**C**

- Calcitonin, thyroid medullary cancer and, 300
- Calcitonin gene-related peptide, thyroid medullary cancer and, 300
- Campylobacter pylori*, diagnostic methods for, 769
- Cancer. *See specific cancers and sites*
- Capillary electrophoresis, polymerase chain reaction-amplified DNA detection by, 271
- Carcinoembryonic antigen  
 in diagnosis of lung carcinoma, carcinomas metastatic to lung and pleura, and pleural malignant mesothelioma, 315  
 identification of malignant cells in serous effusions and, 867  
 malignant peritoneal mesothelioma in childhood and, with long-term survival, 493  
 thyroid medullary cancer and, 300
- Carcinoids  
 of ampulla of Vater, 51  
 bronchopulmonary, typical and atypical, clinicopathologic and flow cytometric study of, 828  
 hepatic, primary, 172  
 ileal and appendiceal, histogenesis of, 271
- Carcinoma. *See also specific sites and types*  
 Arias-Stella reaction in fallopian tube epithelium and, 892  
 arising within fibroadenoma of breast, 614  
 with ascites, false-positive immunostaining of normal epithelia and, fluid preparations of antimelanoma monoclonal antibody HMB45 and, 454
- Cardiac myxoma, psammomatous melanotic schwannoma and, 484
- Carney's complex, psammomatous melanotic schwannoma and, 484
- CD2 antigen, hairy cell leukemia and, HTLV-I associated myopathy in, after blood transfusion, 72
- CD45 antigen isoforms, surface and cytoplasmic expression of, in normal and malignant myeloid cell differentiation, 180
- CD45RA, surface and cytoplasmic expression of, in normal and malignant myeloid cell differentiation, 180
- CD45RO  
 immunostaining of paraffin-embedded tissues and, 188  
 surface and cytoplasmic expression of, in normal and malignant myeloid cell differentiation, 180
- Cell culture, enhanced isolation of influenza virus in conventional cell cultures and, by low-speed centrifugation from clinical specimens, 765

- Cell differentiation, normal and malignant, surface and cytoplasmic expression of CD45 antigen isoforms and, 180
- Cell lineage determination, in acute leukemias, myeloperoxidase mRNA detection for, 271
- Cerebrospinal fluid  
 acid-fast bacillus smear and culture and, 418  
 in children, hematopoietic elements in, 532  
 immunofixation to quantify  $\beta_2$  transferrin in, to detect leakage of cerebrospinal fluid from skull injury, 271
- Veneral Disease Research Laboratory testing and, 397
- Cervical adenocarcinoma, human papillomavirus types 16 and 18 in, 647
- Cervical carcinoma, nucleic acid hybridization for detection and typing of human papillomavirus and, 21
- Cervical dysplasia, nucleic acid hybridization for detection and typing of human papillomavirus and, 21
- Cervical lesions, detection of human papillomavirus DNA in biopsy specimens from, polymerase chain reaction and Southern blot hybridization for, 638
- Cervical smears, conventional and parallel monolayer, comparison of cytologic diagnoses on, 271
- Children  
 adenovirus encephalitis in, 271  
 adrenal cortical neoplasms in, clinicopathologic study with emphasis on prognostic factors and, 271  
 congenital cystic adenomatoid malformation in, bronchoalveolar carcinoma of lung and, 889  
 fine-needle aspiration biopsy in, 653  
 granular acute lymphoblastic leukemia in, laboratory correlates and prognostic significance of, 526  
 hematopoietic elements in cerebrospinal fluid in, 532  
 malignant peritoneal mesothelioma in, with long-term survival, 493  
 normal bone marrow in, B-cell precursors in, 816  
 prepupal, human papillomavirus segregation patterns and, 467
- Chimerism, detection of host cells in peripheral blood and, of bone marrow transplant recipients, probe to repeat sequence of Y chromosome for, 201
- Chlamydia trachomatis*, in cervical specimens, comparison of Gen-Probe PACE 2 system, direct fluorescent-antibody, and cell culture for detecting, 578
- Chloroacetate esterase, acute myeloid, 567
- Chloroma, 567  
 granulocytic sarcoma presenting as, with acute paraparesis, in aleukemic patient, 228
- Cholesterol measurement, Monte Carlo simulation of split-sample assessment of performance of, 271
- Chondroid neoplasm, ossifying fibromyxoid tumor and, 142
- Chromosomal analysis, Muir-Torre syndrome and, 271
- Chromosomes  
 abnormalities of, t(11;14)(q13;q2) in B-cell lymphomas and, 684  
 interphase cytogenetic analysis in diagnosis and study of neoplastic disorders and, S22
- Chronic myelogenous leukemia, platelet aggregation and, in platelet-rich plasma and whole blood, 82
- Cladosporium trichoides*, cerebral phaeohyphomycosis and, in liver transplant patient, 499
- Clear cell carcinoma, multilocular cystic renal cell carcinoma and, 633
- Clear cell cribriform hyperplasia, of prostate, immunohistochemical and DNA flow cytometric study of, 446
- Clinical correlation  
 bone marrow in HIV-related disease and, 63  
 detection of Ki-67 proliferation rate in breast cancer and, 30
- Clinical diagnosis, comparison of Gen-Probe PACE 2 system, direct flu-

- orescent-antibody, and cell culture for detecting *Chlamydia trachomatis* in cervical specimens and, 578
- Clonality, genotypic analysis of diffuse, mixed cell lymphomas and, 547
- Clonogenicity, of solid human tumor cells, effect of tissue disaggregation methods on, 271
- Clot-promoting reagent, preparation of serum for chemistry analyses using, 271
- Coagulation defects, platelet dysfunction in Noonan's syndrome and, 739
- Coagulation testing, measurement of activated partial thromboplastin time and, from capillary sample of whole blood, 222
- Collagen, platelet aggregation by, prevention by ascorbic acid, 271
- Colon, small cell carcinoma of, 315
- Colposcopy, in gynecologic malignancies, quality assurance correlations and, 271
- Computed tomography, in diagnosis of malignant lymphoma, 878
- Condyloma nucleic acid hybridization for detection and typing of human papillomavirus and, 21
- Coombs' test, ceftazidime-induced hemolysis with drug-dependent antibodies and, reactive by immune complex and drug absorption mechanisms, 393
- Coronary artery disease, severely angiographically assessed, serum apoprotein levels as indicators for, 597
- Coronary thrombosis, May-Hegglin anomaly and, 715
- Coulter STKS, field evaluation of, 207
- Coulter VCS, comparison with Technicon H-1 and 800-cell manual method for white blood cell differential counts, 381
- Creatine kinase cardiac isoenzyme comparison of diagnostic performance of three methods of measuring, 271
- mimicking CK MB on agarose gel electrophoresis, 753
- positive, without acute myocardial infarction, 271
- Cryptosporidiosis, correlative light and electron microscopy of, 271
- Cyclooxygenase deficiency, platelet dysfunction in Noonan's syndrome and, 739
- Cystic carcinoma, renal cell, multilocular, 633
- Cytocentrifuge, hematopoietic elements in cerebrospinal fluid in children and, 532
- Cytodiagnosis, of *Pneumocystis carinii*, in bronchoalveolar lavage fluid, Papanicolaou's stain compared with Gomori methenamine silver stain for, 583
- Cytofluorometry, antisperm antibody detection using concurrent cytofluorometry and indirect immunofluorescence microscopy and, 242
- Cytogenetics, interphase cytogenetic analysis in diagnosis and study of neoplastic disorders and, S22
- Cytokeratin, S2 malignant peritoneal mesothelioma in childhood and, with long-term survival, 493
- as marker for trophoblastic tissue, 137
- poorly differentiated prostate carcinoma distinguished from granulomatous prostatitis and, immunohistochemistry and, 330
- Cytology aspiration pneumonia and, diagnosis by lipid-laden macrophage index applied to bronchoalveolar lavage specimens, 271
- ballistic injury and, 660
- conventional and parallel monolayer cervical smears and, comparison of diagnoses and, 271
- to distinguish hepatocellular carcinoma from nonneoplastic liver and, criteria for, 125
- DNA analysis in effusions and, by flow cytometry and image analysis, 6
- fine-needle aspiration. *See* Fine-needle aspiration cytology
- in gynecologic malignancies, quality assurance correlations and, 271
- identification of malignant cells in serous effusions and, 867
- monoclonal antibody 44-3A6 in cell blocks and, in diagnosis of lung carcinoma, carcinomas metastatic to lung and pleura, and pleural malignant mesothelioma and, 315
- mucocele-like tumors of breast and, 875
- ovarian follicular cysts as source of false-positive diagnoses in, 271
- pediatric fine-needle aspiration biopsy and, 653
- slide preparation system for, 271
- Cytomegalovirus, commercial enzyme immunoassays for, 428
- Cytomegalovirus placenta, fetal inflammatory response to, immunochemical analysis of, 271
- Cytopenia, after treatment with recombinant human interleukin-3, 355
- Cytoreduction, emergency, for malignant leukocytosis, 271
- Cytotoxic cells, human granzyme B as marker for, 271

**D**

- D-dimer, measurement in obstetric patients, diagnostic utility of, 271
- Decision analysis, S50
- Delta checks, relevance for error detection, in highly automated chemistry laboratories, 271
- Dermatiaceous fungi, cerebral phaeohyphomycosis and, in liver transplant recipient, 499
- Deming regression, laboratory and clinical evaluation of white blood cell differential counts and, Coulter VCS, Technicon H-1, and 800-cell manual method compared for, 381
- Desmin, positive staining for, spindle cell pseudotumor attributable to *Mycobacterium avium-intracellulare* in AIDS and, 271
- Diabetes mellitus, portable blood glucose monitoring and, outcomes and, 112
- Diagnosis, S50
- cytodiagnosis of *Pneumocystis carinii* in bronchoalveolar lavage fluid and, Papanicolaou's stain compared with Gomori methenamine silver stain for, 583
- laboratory. S50
- comparison of Gen-Probe PACE 2 system, direct fluorescent-antibody, and cell culture for detecting *Chlamydia trachomatis* in cervical specimens and, 578
- serodiagnosis of syphilis and, cerebrospinal fluid and, Venereal Disease Research Laboratory testing and, 397
- Diagnostic pathology, molecular pathology and diagnosis of infectious diseases and, S8
- Diarrhea, nosocomial, stool cultures and ova and parasite examinations in, prognosis and, 271
- Differential leukocyte count, laboratory and clinical evaluation of, Coulter VCS, Technicon H-1, and 800-cell manual method compared for, 381
- Direct fluorescent-antibody, for detecting *Chlamydia trachomatis* in cervical specimens, 578
- DNA detection in biopsy specimens from cervical lesions, polymerase chain reaction and Southern blot hybridization for, human papillomavirus and, 638
- human papillomavirus, detection on Papanicolaou's smears, by *in situ* hybridization, with biotinylated probes, 475
- polymerase chain reaction-amplified, capillary electrophoresis for detection of, 271
- serum hepatitis B virus, in seropositive and seronegative patients with normal liver function, polymerase chain reaction and, 591
- DNA analysis
- clear cell cribriform hyperplasia of prostate and, 446
- in Ewing's sarcoma, 271

flow cytometric, of effusions, 2  
 flow cytometry and image analysis of effusions and, 6  
 malignant peritoneal mesothelioma in childhood and, with long-term survival, 493  
 of paraffin-embedded tissue, variation in reference cells for, 271  
 DNA flow cytometry, in prostate cancer, prognostic significance of, 271  
 DNA ploidy  
   effects of fixatives and fixation conditions on analysis of, 460  
   in esophageal squamous carcinoma, 844  
   heterogeneous, in primary and metastatic ovarian carcinoma, 271  
   relationship between DNA ploidy status, expression of HER-2/neu oncogene, and presence of hormone receptors in breast cancer and, 271  
 in tumors quantitated by image versus flow cytometry, 271  
 DNA probes  
   for detecting *Chlamydia trachomatis* in cervical specimens, 578  
   interphase cytogenetic analysis in diagnosis and study of neoplastic disorders and, S22  
 DNA sequences, identification in peripheral mononuclear cells, human papillomavirus and, 540  
 Duplicate analyses, of prothrombin time and activated partial thromboplastin time assays, 77  
 Dysmegakaryopoiesis, resembling acute megakaryoblastic leukemia, in acute myeloid leukemia, 556

**E**

Efficiency, computer-assisted work station timing analysis of instrument labor efficiency and, 743  
 Effusions  
   DNA image analysis of, 6  
   flow cytometric DNA analysis of, 2, 6  
   serous, identification of malignant cells in, 867  
 Ehrlichiosis, expansion of immature thymic precursor cells in peripheral blood after acute marrow suppression and, 824  
 Ektachem 700, computer-assisted work station timing analysis of instrument labor efficiency and, 743  
 Electron microscopy  
   Arias-Stella reaction in fallopian tube epithelium and, 892  
   intraspinal neurothekeoma and, 511  
   light microscopy correlated with, intestinal giardiasis, cryptosporidiosis, and spirochetosis and, 271  
   liposarcoma of thyroid gland and, 675  
   ossifying fibromyxoid tumor and, 142  
   pediatric fine-needle aspiration biopsy and, 653  
   primary carcinoid tumor of liver and, 172  
   scanning, light microscopy and energy dispersive spectroscopy correlated with, pseudogout presenting as spinal masses and, 271  
 Electrophoresis  
   agarose gel, creatine kinase isoenzyme band mimicking CK MB on, 753  
   capillary, polymerase chain reaction-amplified DNA detection by, 271  
 EMA, as paraffin section marker for Reed-Sternberg cells, 271  
 Encephalitis, adenovirus, pediatric, 271  
 Endometrial carcinoma, hormone receptor assays in, biochemical and immunocytochemical, comparison of, 271  
 Enzyme histochemistry, biopsy specimen preservation for, novel method for, 131  
 Enzyme immunoassays  
   anti-delta EIA kit for detection of antibodies to hepatitis delta virus and, 240  
   for toxoplasma and cytomegalovirus antibodies, 428  
 Enzymes, serum, in skeletal muscle diseases, 293, 402

Ependymoma, metastatic small cell tumor of bone and, with 'true' rosettes and glial fibrillary acidic protein positivity, 166  
 Epithelial membrane antigen  
   identification of malignant cells in serous effusions and, 867  
   malignant peritoneal mesothelioma in childhood and, with long-term survival, 493  
 Epstein-Barr virus, demonstration of genome by polymerase chain reaction, in lymphoepithelioma of stomach and parotid gland, 271  
 Error detection, relevance of delta checks for, in highly automated chemistry laboratories, 271  
 Esophagus  
   adenocarcinoma of, D-14 expression in, 271  
   Barrett's, D-14 expression in, 271  
   squamous carcinoma of, prognostic factors in, 844  
 Estrogen receptors  
   assays of  
    automated immunohistochemical, in fixed embedded breast carcinomas, 335  
    immunohistochemical and biochemical, comparison and evaluation of scoring techniques and, 271  
   fluorescent cytochemical detection of, in breast fine-needle aspirates, 35  
 Estrogens, infarction in focal nodular hyperplasia of liver and, 503  
 Ewing's sarcoma  
   DNA analysis in, 271  
   metastatic small cell tumor of bone and, with 'true' rosettes and glial fibrillary acidic protein positivity, 166  
*Exserohilum*, *in vitro* susceptibility patterns of clinical isolates of, phaeohyphomycosis and, 271

**F**

Factor VIII, *in vivo* effect on activated partial thromboplastin time monitoring of heparin therapy and, 271  
 Fallopian tube, Arias-Stella reaction in epithelium of, 892  
 Febrile reactions, to transfusions  
   efficacy of leukopenic platelets for prevention of, 733  
   of platelets, 609  
 Fecal concentration, of *Schistosoma mansoni* ova, 91  
 Fetal lung profile, prediction of respiratory distress and, lamellar body number density and, 781  
 Fetus  
   fetal inflammatory response to cytomegalovirus placenta and, immunohistochemical analysis of, 271  
   maturity of, rapid lamellar body count in assessment of, 778  
   venous anomaly of placenta and, 48  
 Fever  
   febrile transfusion reaction and  
    efficacy of leukopenic platelets for prevention of, 733  
    platelet transfusions and, 609  
    of unknown origin, bone marrow biopsy in evaluation of, 271  
 Fibroadenoma, of breast, carcinoma arising within, 614  
 Fibromyxoid tumor, ossifying, 107  
   of soft parts, 142  
 Filtration, efficacy of leukopenic platelets for prevention of febrile transfusion reactions and, 733  
 Fine-needle aspiration  
   fluorescent cytochemical detection of estrogen and progesterone receptors in aspirates and, 35  
   of spindle-cell neoplasms, 271  
   submandibular gland specimen and, chronic sialadenitis with psammoma bodies mimicking neoplasia in, 884

- Fine-needle aspiration biopsy**  
 to distinguish hepatocellular carcinoma from nonneoplastic liver and, criteria for, 125  
 pediatric, 653
- Fine-needle aspiration cytology**  
 identification of clinically occult breast disease and, in women with family history of breast cancer, 157  
 liposarcoma of thyroid gland and, 675
- Fixation.** *See also Paraffin-embedded tissue*  
 preservation of antigenic sites and, 271

- Lymph nodes  
 biopsy of, glycol methacrylate embedding and, 150  
 correlation between *neu*-protein overexpression, histologic grade, lymph node involvement, and steroid receptor status in breast cancer and, 271  
 intranodal leiomyoma and, 858  
 intrathoracic, infection by *Pneumocystis carinii*, 271
- Lymphoblastic leukemia, acute, granular, in children, laboratory correlates and prognostic significance of, 526
- Lymphocytes, with cleaved or convoluted nuclei, lymphocytosis accompanying *Bordatella pertussis* infection and, 809
- Lymphocytosis, accompanying *Bordatella pertussis* infection, morphologic and immunophenotypic assessment of, 809
- Lymphoepithelioma, of stomach and parotid gland, with Epstein-Barr viral genome demonstrated by polymerase chain reactions, 271
- Lymphoid tissue, cellular, as sample source for Southern molecular analysis, 271
- Lymphokines, in follicular lymphomas, production of, 55
- Lymphoma  
 B-cell  
   immunoglobulin expression in, 684  
   t(11;14)(q13;q2) in, 684  
   follicular, t(11;14)(q13;q2) in, 684  
   gene rearrangements in diagnosis of, 347  
 Hodgkin's, gastrointestinal, surgical pathology of, 794  
 lymphocytic, intermediate, t(11;14)(q13;q2) in, 684  
 malignant  
   diffuse, mixed cell, genotypic analysis of, 547  
   herpes simplex lymphadenitis and, 709  
   stereotactic brain biopsy in diagnosis of, 878

- non-Hodgkin's  
 diffuse, in children, clinical significance of histology and immunophenotype in, 787  
 immunophenotyping of, in paraffin-embedded tissue sections, 517  
 Leu-22 and UCHL-1 as markers for, 696  
 My4 antibody staining and, 363
- T-cell  
 adult, detection of proviral sequences from fixed tissues of seropositive patients and, 536  
 Leu-22 and UCHL-1 as markers for, 696  
 peripheral, in HIV-infected patients, 271
- Lysozyme**, poorly differentiated prostate carcinoma distinguished from granulomatous prostatitis and, immunohistochemistry and, 330
- M**
- Malaria**, rapid microscopic detection of parasites in blood smears and, permanent stained with aluminum and morin, 424
- Markers**, as prognostic indicators, in medullary thyroid carcinoma, 297
- Mass spectrometry**, gas chromatography, effect of bacteriuria on quantitation of benzoylecgonine by, 271
- May-Hegglin anomaly**, coronary thrombosis and, 715
- Megakaryocytes**, dysmegakaryopoiesis resembling acute megakaryoblastic leukemia and, in acute myeloid leukemia, 556
- Melanin**, occurrence in pheochromocytoma, 271
- Melanoma**  
 cutaneous, clinical stage I, prognostic factors in, 271  
 marker for, false-positive immunostaining of normal epithelia and carcinomas with ascites and, fluid preparations of antimelanoma monoclonal antibody HMB45 and, 454
- Meningitis**, cerebrospinal fluid and, acid-fast bacillus smear and culture and, 418
- Meritek-GC kit**, Identikit-Nisseria kit compared with, for culture confirmation of gonorrhea, 271
- Mesothelioma**  
 malignant, pleural, monoclonal antibody 44-3A6 in diagnosis of, 315  
 peritoneal, malignant, in childhood, with long-term survival, 493
- Metaplasia**, of breast, carcinomas with, 623
- Microbiology**, pediatric fine-needle aspiration biopsy and, 653
- Microbiology transport systems**, comparison of, 271
- Microparticle enzyme immunoassay**, prolactin concentration and, radioimmunoassay compared with, 271
- Microscopy**. *See also* Electron microscopy; Light microscopy  
 analysis of urine erythrocyte morphology and, 257  
 immunofluorescence, antisperm antibody detection using concurrent cytofluorometry and indirect immunofluorescence microscopy and, 242  
 rapid detection of malaria parasites in blood smears and, permanently stained with aluminum and morin, 424
- Microwave**, glycol methacrylate embedding and, 150
- Mixing studies**, mixing study reagents and dilution effect in lupus anticoagulant testing and, 408
- Molecular probes**, diagnosis of infectious diseases and, S8
- Monoclonal antibodies**  
 44-3A6, in cell blocks, in diagnosis of lung carcinoma, carcinomas metastatic to lung and pleura, and pleural malignant mesothelioma, 315  
 HMB45, fluid preparations of, false-positive immunostaining of normal epithelia and carcinomas with ascites and, 454  
 Leu-22 and UCHL-1, as markers for peripheral T-cell lymphomas, 696
- Monoclonality**, for initial serum screening, objective and sensitive criteria of, 271
- Monocyte monolayer assay**, red cell survival studies with anti-Tc<sup>a</sup> and, 87
- Monocytoïd B cells**, Hodgkin's disease in clusters of, 802
- Mononuclear cells**, in peripheral blood, identification of human papillomavirus DNA sequences in, 540
- Morin**, rapid microscopic detection of malaria parasites in blood smears and, permanently stained with aluminum and morin, 424
- Morphology**, of *Blastocystis hominis*, 271
- Morphometry**, S50  
 histogenesis of ileal and appendiceal carcinoids and, 271  
 small cell lung cancer and, nuclear diameters of small cell lung cancer compared to lymphocytes and, 271
- Mucoepidermoid cancer**, papillary carcinoma of thyroid and, 175
- Mucosubstance**, sulfated, nonsulfated, and neutral, trichrome staining method for, 271
- Muir-Torre syndrome**, chromosomal analysis and, 271
- Munchausen syndrome**, discrepant blood typing and, 232
- Muscle disease**, chronic, serum enzyme alterations in, 402
- Muscle injury**, ballistic, cytologic manifestations of, 660
- My4 antibody**, non-Hodgkin's lymphoma and, 363
- Mycobacteria**, in sputum smears, in human immunodeficiency virus, significance of, 271
- Mycobacterium avium-intracellulare**, spindle cell pseudotumor attributable to, in AIDS, positive staining for desmin and, 271
- Mycobacterium avium-intracellulare complex**, in AIDS, rapid diagnosis based on inclusions in peripheral blood smear and, 369
- Mycobacterium tuberculosis**, cerebrospinal fluid and, acid-fast bacillus smear and culture and, 418
- Myelodysplasia**, dysmegakaryopoiesis resembling acute megakaryoblastic leukemia and, in acute myeloid leukemia, 556
- Myelofibrosis**  
 hemorrhagic diathesis in, vascular proliferation as cause of, 564  
 idiopathic, platelet aggregation and, in platelet-rich plasma and whole blood, 82
- Myeloperoxidase mRNA detection**, cell lineage determination in acute leukemias and, 271
- Myeloproliferative disorders**, platelet aggregation and, in platelet-rich plasma and whole blood, 82
- Myocardial infarction**, creatine kinase isoenzyme band mimicking CK MB on agarose gel electrophoresis and, 753
- Myoglobulinuria**, hemolytic transfusion reaction mimicked by, 271
- Myxoma**  
 nerve sheath, 511  
 ovarian, 340
- N**
- Neck tumors**, liposarcoma of thyroid gland and, fine-needle aspiration cytology, immunohistology, and ultrastructure and, 675
- Necrosis**, Hodgkin's disease in monocytoid B cell clusters and, 802
- Neoplasia**. *See also* specific types and types of neoplasia  
 interphase cytogenetic analysis in diagnosis and study of, S22
- Nephropathy**, IgA-IgM, 863
- Nerve sheath**  
 myxoma of, 511  
 ossifying fibromyxoid tumor and, 142
- Nervous system neoplasms**, stereotactic brain biopsy in diagnosis of, 878
- neu-protein**, overexpression of, correlation between neu-protein overexpression, histologic grade, lymph node involvement, and steroid receptor status in breast cancer and, 271
- Neural networks**, nuclear grading of breast carcinoma by image analysis and, S29
- Neuraminidase**, bone-like variant of alkaline phosphatase and, 749

Neuroectodermal tumor, primitive, metastatic small cell tumor of bone and, with 'true' rosettes and glial fibrillary acidic protein positivity, 166

Neuroendocrine carcinoma, of ampulla of Vater, 51

Neuroendocrine neoplasms, anti-CD56 reactivity in, 271

Neuroepithelioma, metastatic small cell tumor of bone and, with 'true' rosettes and glial fibrillary acidic protein positivity, 166

Neuron-specific enolase, thyroid medullary cancer and, 300

Neurosecretory granules, primary carcinoid tumor of liver and, 172

Neurosphingolipid, cerebrospinal fluid and, Venereal Disease Research Laboratory testing and, 397

Neurothekeoma, intraspinal, 511

Nicotine, determination of serum nicotine concentration and, solid-phase extraction and GC/MS with selected ion monitoring for, 271

Nodular fasciitis, papillary thyroid carcinoma with exuberant nodular fasciitis-like stroma and, 309

Non-A, non-B hepatitis virus antibody, prevalence in human intravenous immunoglobulins, 271

Non-Hodgkin's lymphoma

- diffuse, in children, clinical significance of histology and immunophenotype in, 787
- immunophenotyping of, in paraffin-embedded tissue sections, 517
- Leu-22 and UCHL-1 as markers for, 696
- My4 antibody staining and, 363

Noonan's syndrome, platelet dysfunction in, 739

Norepinephrine, platelet aggregation by, prevention by ascorbic acid, 271

Nuclear grading, of breast carcinoma, by image analysis, classification by multivariate and neural network analysis and, S29

Nucleic acid hybridization, for detection and typing of human papillomavirus, 21

Nucleoli, morphologic characteristics of, in differential diagnosis of well-differentiated prostatic adenocarcinoma, 271

**O**

Obstetric patients, D-dimer measurement in, diagnostic utility of, 271

Ocular crystallizing dystrophy, ultrastructural morphology of leukocytes in, 271

Ossifying fibromyxoid tumor, 107

- of soft parts, 142

Ova concentration, of *Schistosoma mansoni*, in feces, 91

Ova examinations, in nosocomial diarrhea, prognosis and, 271

Ovarian carcinoma, primary and metastatic, heterogeneous DNA ploidy in, 271

Ovarian follicular cysts, as source of false-positive diagnoses in ovarian cytology, 271

Ovarian myxoma, 340

Ovarian sarcoma, 340

**P**

Papanicolaou's stain

- for cytodiagnosis of *Pneumocystis carinii* in bronchoalveolar lavage fluid, Gomori methenamine silver stain compared with, 583
- detection of human papillomavirus DNA by *in situ* hybridization and, with biotinylated probes, 475

Papillary carcinoma, thyroid

- with mucoepidermoid features, 175
- variant of, with exuberant nodular fasciitis-like stroma, 309

Pappenheimer bodies, babesiosis and, 774

Paraffin-embedded tissue

- A6 for immunostaining of, 188

automated immunohistochemical estrogen receptor and, in fixed embedded breast carcinomas, 335

detection of human T-cell leukemia virus type I proviral sequences from, 536

DNA analysis of, variation in reference cells for, 271

effects of fixatives and fixation conditions on DNA ploidy analysis and, 460

immunophenotyping of non-Hodgkin's lymphomas and, 517

Leu-22 and UCHL-1 as markers for peripheral T-cell lymphomas and, 696

leukocytes and, antibodies marking, 607

PCR amplification and, effects of fixative and fixation time on, 117

preservation of antigenic sites in, 271

Paraffin section markers, for Reed-Sternberg cells

- comparative study of L-26, UCHL-1, LCA, EMA, and S 100 and, 271
- Lewis X and Leu M1 staining compared and, 271

Paramax B6100, computer-assisted work station timing analysis of instrument labor efficiency and, 743

Paranuclear clearing, primary carcinoid tumor of liver and, 172

Parasite examinations, in nosocomial diarrhea, prognosis and, 271

Parotid gland, lymphoepithelioma of, with Epstein-Barr viral genome demonstrated by polymerase chain reactions, 271

Pathology, management informatics rotation for pathology residents and, S38

PCR amplification, from paraffin-embedded tissues, effects of fixative and fixation time and, 117

Pentamidine, aerosolized, widespread dissemination of *Pneumocystis carinii* infection and, AIDS and, 96

Peptic ulcer, diagnostic methods for, 769

Peripheral blood

- expansion of immature thymic precursor cells in, after acute bone marrow suppression, 824
- mononuclear cells of, identification of human papillomavirus DNA sequences in, 540

Peritoneum, malignant peritoneal mesothelioma in childhood and, with long-term survival, 493

PGI<sub>2</sub>, serologic characterization of Rocky Mountain spotted fever and, antibodies reactive with endothelial cells and phospholipids and factors altering protein C activation and prostacyclin secretion and, 725

Phaeohyphomycosis

- cerebral, in liver transplant recipient, 499
- *in vitro* susceptibility patterns of clinical isolates of *Bipolaris* and *Exserohilum* and, 271

Pheochromocytoma, occurrence of melanin in, 271

Phosphatidyl glycerol, rapid lamellar body count in assessment of fetal maturity and, 778

Phospholipids, prediction of respiratory distress and, lamellar body number density and, 781

Physical training program, effect on serum alanine aminotransferase, 271

Pituitary biopsy, lymphocytic hypophysitis and pulmonary sarcoidosis and, 506

Placenta

- cytomegalovirus infection of, fetal inflammatory response to, immunohistochemical analysis of, 271
- venous anomaly of, 48

Plasma cell dyscrasias, increased serum  $\alpha_2$  fraction as indicator of, 271

Plasma lactate, rapid analysis in stat laboratory, 271

Plastic embedding, biopsy specimen preservation for histochemical and immunohistochemical analysis and, 131

Plate centrifugation, enhanced isolation of influenza virus in conventional

- cell cultures and, by low-speed centrifugation from clinical specimens, 765
- Platelet aggregation**  
by norepinephrine, collagen, ADP, and ristocetin, prevention by ascorbic acid, 271  
in platelet-rich plasma and whole blood, myeloproliferative disorders and, 82
- Platelet function**  
coronary thrombosis in patient with May-Hegglin anomaly and, 715  
in Noonan's syndrome, 739
- Platelet mass, coronary thrombosis in patient with May-Hegglin anomaly and, 715**
- Platelet morphology, coronary thrombosis in patient with May-Hegglin anomaly and, 715**
- Platelets, leukopenic, efficacy for prevention of febrile transfusion reactions, 733**
- Platelet transfusions, febrile reactions to, 609**
- Pleura**  
carcinomas metastatic to, monoclonal antibody 44-3A6 in diagnosis of, 315  
malignant mesothelioma of, monoclonal antibody 44-3A6 in diagnosis of, 315
- Ploidy. See also DNA ploidy**  
analysis of terminal deoxynucleotidyl transferase by flow cytometry and, 369  
flow cytometric analysis of, need for improvement in, 439
- Pneumocystis carinii infection**  
cytodiagnosis in bronchoalveolar lavage fluid, Papanicolaou's stain and Gomori methenamine silver stain compared for, 583  
intrathoracic lymph node infection by, 271  
presenting as necrotizing thyroiditis and hypothyroidism, 489  
widespread dissemination of, aerosolized pentamidine treatment and, AIDS and, 96
- Pneumocytosis, extrapulmonary, *Pneumocystis carinii* pneumonia presenting as necrotizing thyroiditis and hypothyroidism and, 489**
- Pneumonia**  
aspiration, cytologic diagnosis of, by lipid-laden macrophage index applied to bronchoalveolar lavage specimens, 271
- Pneumocystis carinii*  
presenting as necrotizing thyroiditis and hypothyroidism, 489  
widespread dissemination of, aerosolized pentamidine treatment and, AIDS and, 96
- Polycythemia vera, platelet aggregation and, in platelet-rich plasma and whole blood, 82**
- Polymerase chain reaction**  
Epstein-Barr virus genome demonstrated by, in lymphoepithelioma of stomach and parotid gland, 271  
genotypic analysis of diffuse, mixed cell lymphomas and, 547  
hepatitis B virus detection by, 442  
human papillomavirus DNA detection in biopsy specimens from cervical lesions and, 638  
human T-cell leukemia virus type I proviral sequence detection and, from fixed tissues of seropositive patients, 536  
identification of human papillomavirus DNA sequences in peripheral mononuclear cells and, 540  
serum hepatitis B virus DNA in seropositive and seronegative patients with normal liver function and, 591
- Polymerase chain reaction-amplified DNA, capillary electrophoresis for detection of, 271**
- Portable blood glucose monitoring**  
accuracy of, effect of glucose level and prandial state on, 247  
diabetic patients and, outcomes of, 112
- Prealbumin, serum, immunoturbidimetric assay of, with centrifugal analyzer, 271**
- Pregnancy, amniotic fluid isolation of *Ureaplasma urealyticum* and, adverse outcome and, 271**
- Progesterone receptors, fluorescent cytochemical detection of, in breast fine-needle aspirates, 35**
- Prognostic factors**  
in cutaneous melanoma, clinical stage I, 271  
DNA flow cytometry in prostate cancer and, 271  
in esophageal squamous carcinoma, 844  
granular acute lymphoblastic leukemia in children and, 526  
in medullary thyroid carcinoma, markers as, 297  
in nosocomial diarrhea, stool cultures and ova and parasite examinations and, 271  
in pediatric adrenal cortical neoplasms, 271  
prognostic value of serum proteins synthesized by breast carcinoma and, 835
- Prolactin, comparison of concentrations of, by radioimmunoassay and microparticle enzyme immunoassay, 271**
- Proliferative activity, detection of Ki-67 proliferation rate in breast cancer and, 30**
- Proliferative breast disease, clinically occult, identification of, in women with family history of breast cancer, 157**
- Prostate**  
adenocarcinoma of, differential diagnosis of, morphologic characteristics of nucleoli in, 271  
clear cell cribriform hyperplasia of, immunohistochemical and DNA flow cytometric study of, 446
- Prostate cancer**  
DNA flow cytometric analysis in, prognostic significance of, 271  
poorly differentiated, granulomatous prostatitis distinguished from, immunohistochemical methods and, 330
- Prostate-specific antigen, poorly differentiated prostate carcinoma distinguished from granulomatous prostatitis and, immunohistochemistry and, 330**
- Prostatis, granulomatous, poorly differentiated prostate carcinoma distinguished from, immunohistochemical methods and, 330**
- Protein C, serologic characterization of Rocky Mountain spotted fever and, 725**
- Proteinemia, Bence Jones, isolated, clinical spectrum of, 271**
- Protein tyrosine phosphatase, surface and cytoplasmic expression of CD45 antigen isoforms and, in normal and malignant myeloid cell differentiation, 180**
- Proteinuria**  
Bence Jones, isolated, clinical spectrum of, 271  
IgA-IgM nephropathy and, 863
- Prothrombin time, duplicate testing of, 77**
- Psammoma body, chronic sialadenitis with, mimicking neoplasia in fine-needle aspiration specimen from submandibular gland, 884**
- Psammomatous melanotic schwannoma, Carney's complex and, 484**
- Pseudogout, presenting as spinal masses, correlative light microscopy, scanning electron microscopy, and energy dispersive spectroscopy of, 271**
- Q**
- Quality assurance**  
blood usage review and, laboratory information system for, 389  
correlations in cytologic, histopathologic, and colposcopic examination and, in gynecologic malignancies, 271
- Quinine, babesiosis and, 774**

**R**

- Radiation-induced neoplasia, papillary carcinoma of thyroid and, 175  
 Radioimmunoassay  
   anti-delta EIA kit for detection of antibodies to hepatitis delta virus and, 240  
   prolactin concentration and, microparticle enzyme immunoassay compared with, 271  
 Rectum, small cell carcinoma of, 315  
 Red blood cell indices, moving average algorithm as quality control procedure and, Technicon System H6000 and, 218  
 Red blood cells  
   extravascular destruction of, red cell survival studies with anti-Tc<sup>a</sup> and, 87  
   stored  
     aging, irradiation effect on, 271  
     freshly collected, irradiation effect on, 271  
     survival of, with anti-Tc<sup>c</sup>, 87  
 Reed-Sternberg cells, paraffin section markers for comparative study of L-26, UCHL-1, LCA, EMA, and S 100 and, 271  
 Lewis X and Leu M1 staining compared and, 271  
 Renal cell carcinoma, cystic, multilocular, 633  
 Renal hamartoma, leiomyomatous, urothelial, 481  
 Renal mesenchymal proliferation, urothelial leiomyomatous renal hamartoma and, 481  
 Renal pelvic mass, urothelial leiomyomatous renal hamartoma and, 481  
 Residents, management informatics rotation for pathology residents and, S38  
 Resin embedding, glycol methacrylate, 150  
 Respiratory distress, prediction of, lamellar body number density and, 781  
 Retrovirus vectors, transducing human purine nucleoside phosphorylase gene, 271  
 Richter's syndrome, Southern blot analysis in, 571  
 Ristocetin, platelet aggregation by, prevention by ascorbic acid, 271  
 Rocky Mountain spotted fever, serologic characterization of, antibodies reactive with endothelial cells and phospholipids and factors altering protein C activation and prostacyclin secretion and, 725  
 Rule generation, serum enzyme alterations in chronic muscle disease and, 402  
 Russell's viper bite, antivenom therapy in, 412

**S**

- S 100, as paraffin section marker for Reed-Sternberg cells, 271  
 Sarcoïdosis, pulmonary, lymphocytic hypophysitis and, 506  
 Sarcoma  
   of breast, carcinomas with, 623  
   Ewing's  
     DNA analysis in, 271  
     metastatic small cell tumor of bone and, with 'true' rosettes and glial fibrillary acidic protein positivity, 166  
   granulocytic, 567  
   Kaposi's, in bone marrow, in acquired immunodeficiency syndrome, 561  
   ovarian, 340  
   soft tissue, S2  
 Schistosomiasis, fecal concentration of *Schistosoma mansoni* ova and, 91  
 Schwannoma, melanotic, psammomatous, Carney's complex and, 484  
 Schwann's cell, ossifying fibromyxoid tumor and, 142  
 Serodiagnosis, of syphilis, cerebrospinal fluid and, Venereal Disease Research Laboratory testing and, 397

- Serous atrophy, mycobacteremia and, in AIDS, rapid diagnosis based on inclusions in peripheral blood smear and, 369  
 Serum, preparation for chemistry analyses, using clot-promoting reagent, 271  
 Serum alanine aminotransferase, effects of one-month physical training program on, 271  
 Serum enzymes, in skeletal muscle diseases, 293, 402  
 Serum  $\alpha_2$  fraction, as indicator of plasma cell dyscrasia, 271  
 Serum prealbumin, immunoturbidimetric assay of, with centrifugal analyzer, 271  
 Serum screening, monoclonality for, objective and sensitive criteria of, 271  
 Sexually transmitted diseases, identification of human papillomavirus DNA sequences in peripheral mononuclear cells and, 540  
 Sialadenitis, chronic, with psammoma bodies, mimicking neoplasia, in fine-needle aspiration specimen from submandibular gland, 884  
 Sialolithiasis, chronic sialadenitis with psammoma bodies mimicking neoplasia in fine-needle aspiration specimen from submandibular gland and, 884  
 Signet-ring carcinoma, of urinary bladder, primary, 13  
 Signet ring cell morphology, acute myeloid, 567  
 Skeletal muscle diseases, serum enzyme abnormalities in, 293  
 Skin, melanoma and, clinical stage I, prognostic factors in, 271  
 Skull injury, immunofixation to quantify  $\beta_2$  transferrin in cerebrospinal fluid, to detect leakage of cerebrospinal fluid, 271  
 Small cell carcinoma, of large intestine, 315  
 Small cell lung cancer, morphometric study comparing nuclear diameters of small cell lung cancer to lymphocytes and, 271  
 Small intestinal stenosis, in HIV enteropathy, 271  
 Soft tissue sarcomas, S2  
 Soft tissue tumor, ossifying fibromyxoid tumor and, 142  
 Solid human tumor cells, effects of tissue disaggregation methods on clonogenicity of, 271  
 Solid-phase extraction, determination of serum nicotine concentration using, 271  
 Somatostatin, thyroid medullary cancer and, 300  
 Southern blot hybridization, for detection of human papillomavirus DNA in biopsy specimens from cervical lesions, 638  
 Southern molecular analysis, frozen sections of cellular lymphoid tissues as sample source for, 271  
 Spectroscopy, energy dispersive, light microscopy and scanning electron microscopy correlated with, pseudogout presenting as spinal masses and, 271  
 Sperm immunology, antisperm antibody detection using concurrent cytofluorometry and indirect immunofluorescence microscopy and, 242  
 S-phase fraction analyses  
   of breast carcinomas, *in vitro* labeling of breast carcinomas with bromodeoxyuridine and, 41  
   flow cytometric, need for improvement in, 439  
 Spinal cord compression, granulocytic sarcoma presenting as epidural mass and, in aleukemic patient, 228  
 Spinal masses, pseudogout presenting as, correlative light microscopy, scanning electron microscopy, and energy dispersive spectroscopy of, 271  
 Spinal spastic paraparesis, HTLV-I associated myopathy and, after blood transfusion, hairy cell leukemia and, 72  
 Spindle cell neoplasms, fine-needle aspiration of, 271  
 Spindle cell pseudotumor, attributable to *Mycobacterium avium-intracellularare* in AIDS, positive staining for desmin and, 271  
 Spirochetosis, correlative light and electron microscopy of, 271  
 Spleen, hemangiopericytoma of, 680  
 Sputum smears, in human immunodeficiency virus, significance of mycobacteria seen on, 271

- Squamous carcinoma, esophageal, prognostic factors in, 844  
 Steatosis, small intestinal, in HIV enteropathy, 271  
 Steroid hormone receptors. *See also* Estrogen receptors  
     assays of, in endometrial carcinoma, biochemical and immunocytochemical, comparison of, 271  
     correlation between *neu*-protein overexpression, histologic grade, lymph node involvement, and steroid receptor status in breast cancer and, 271  
     fluorescent cytochemical detection of, in breast fine-needle aspirates, 35  
 Stillbirth  
     associated with positive maternal syphilis serology, detection of *Treponema pallidum* in, pathologic findings and immunofluorescence for, 271  
     diagnostic yield in autopsies of stillborns and, 271  
 Stomach, lymphoepithelioma of, with Epstein-Barr viral genome demonstrated by polymerase chain reactions, 271  
 Stool cultures, in nosocomial diarrhea, prognosis and, 271  
 Stool examination, in hospitalized patient, strategy for, 271  
 Strep A Isolation Agar, for isolation of group A beta-hemolytic streptococci, comparative evaluation of, 587  
 Streptococci, group A beta-hemolytic, isolation of, comparative evaluation of selective and nonselective culture techniques for, 587  
*Streptococcus pneumoniae*, AccuProbe versus rapid conventional tests for identification of, 271  
*Streptococcus pyogenes* infections, severe, re-emergence in New York City, 271  
 Streptococcus Selective Agar, for isolation of group A beta-hemolytic streptococci, comparative evaluation of, 587  
 Student recruitment, for allied health programs, 271  
 Submandibular gland, fine-needle aspiration specimen from, chronic sialadenitis with psammoma bodies mimicking neoplasia in, 884  
 Syphilis  
     cerebrospinal fluid and, Venereal Disease Research Laboratory testing and, 397  
     positive maternal serology for, detection of *Treponema pallidum* in stillborns and, pathologic findings and immunofluorescence for, 271
- T
- T-cell receptor  
     gene rearrangement in diagnosis of lymphoma/leukemia and, 347  
     immunophenotyping of non-Hodgkin's lymphomas and, in paraffin-embedded tissue sections, 517  
 Technicon H-1  
     analysis of urine erythrocyte morphology and, hematologic flow cytometer and microscopic method for, 257  
     comparison with Coulter VCS and 800-cell manual method for white blood cell differential counts, 381  
 Technicon System H6000, moving average algorithm as quality control procedure and, 218  
 Terminal deoxynucleotidyl transferase, analysis by flow cytometry, 369  
 Therapeutic drug monitoring, prediction of free phenytoin levels and, based on [total phenytoin]/[albumin] ratios, hypoalbuminemia and, 253  
 Thrombocytopenia, coronary thrombosis in patient with May-Hegglin anomaly and, 715  
 Thrombocytopenic purpura, chronic idiopathic, platelet dysfunction in Noonan's syndrome and, 739  
 Thrombocytosis, essential, platelet aggregation and, in platelet-rich plasma and whole blood, 82  
 Thrombosis, serologic characterization of Rocky Mountain spotted fever and, antibodies reactive with endothelial cells and phospholipids and factors altering protein C activation and prostacyclin secretion and, 725  
 Thymocytes, immature, expansion in peripheral blood after acute bone marrow suppression, 824  
 Thyroid cancer  
     medullary  
         immunohistochemical and humoral study of, antigens in, 300  
         markers as prognostic indicators in, 297  
         papillary, with exuberant nodular fascitis-like stroma, 309  
 Thyroiditis, necrotizing, *Pneumocystis carinii* pneumonia presenting as, 489  
 Thyroid neoplasm  
     liposarcoma, fine-needle aspiration cytology, immunohistology, and ultrastructure and, 675  
     papillary carcinoma with mucoepidermoid features and, 175  
*Pneumocystis carinii* pneumonia presenting as necrotizing thyroiditis and hypothyroidism and, 489  
 Timing study, computer-assisted work station timing analysis of instrument labor efficiency and, 743  
 Tissue disaggregation methods, effect on clonogenicity of solid human tumor cells, 271  
 Total body irradiation, detection of host cells in peripheral blood and, of bone marrow transplant recipients, probe to repeat sequence of Y chromosome for, 201  
 [Total phenytoin]/[albumin] ratios, prediction of free phenytoin levels based on, hypoalbuminemia and, 253  
*Toxoplasma gondii*, commercial enzyme immunoassays for, 428  
 $t(11;14)(q13.2)$ , in B-cell lymphomas, 684  
 $\beta_2$  Transferrin, immunofixation to quantify in cerebrospinal fluid, to detect leakage of cerebrospinal fluid from skull injury, 271  
 Transfusion committee, blood usage review and, laboratory information system for, 389  
 Transthyretin, immunoturbidimetric assay of, with centrifugal analyzer, 271  
 Trauma, autotransfusion in, comparison of systems for, 271  
*Treponema pallidum*, detection in stillborns, associated with positive maternal syphilis serology, pathologic findings and immunofluorescence for, 271  
 Trichrome staining method, for sulfated, nonsulfated, and neutral mucous substance, 271  
 Trophoblastic tissue, cytokeratin as marker for, 137  
 Trophoblastic tumor, placental site, in postmenopausal woman, 670  
 Tuberculosis  
     meningeal, cerebrospinal fluid and, acid-fast bacillus smear and culture and, 418  
     *Mycobacterium tuberculosis*, cerebrospinal fluid and, acid-fast bacillus smear and culture and, 418  
 Tumor markers, prognostic value of serum proteins synthesized by breast carcinoma and, 835  
 Tumors. *See specific sites and types of tumors*
- U
- UCHL-1  
     as marker for peripheral T-cell lymphomas, 696  
     as paraffin section marker for Reed-Sternberg cells, 271  
 Ultrastructure  
     liposarcoma of thyroid gland and, 675  
     neuroendocrine carcinoma of Ampulla of Vater and, 51  
*Ureaplasma urealyticum*  
     amniotic fluid isolation of, adverse outcome in pregnancy after, 271  
     survival of *Gardnarella vaginalis* in human urine and, 234  
 Urinary bladder, primary signet-ring carcinoma of, 13

Urinary tract infection, survival of *Gardnarella vaginalis* in human urine and, 234

#### Urine

erythrocyte morphology and, hematologic flow cytometer and microscopic method for analysis of, 257

survival of *Gardnarella vaginalis* in human urine and, 234

Urothelial-lined papillary lesion, urothelial leiomyomatous renal hamartoma and, 481

Uterine cervix, adenocarcinoma of, human papillomavirus types 16 and 18 in, 647

#### V

Vascular proliferation, as cause of hemorrhagic diathesis, in myelofibrosis, 564

Venous malformation, of placenta, 48

#### W

Walkaway time, computer-assisted work station timing analysis of instrument labor efficiency and, 743

Warts, genital and nongenital, human papillomavirus segregation patterns and, in prepubertal children and adults, 467

White blood cell differential

Coulter STKS, field evaluation of, 207

laboratory and clinical evaluation of, Coulter VCS, Technicon H-1, and 800-cell manual method compared for, 381

Workload recording method, computer-assisted work station timing analysis of instrument labor efficiency and, 743

#### Y

Y chromosome, probe to repeat sequence of, detection of host cells in peripheral blood and, of bone marrow transplant recipients, 201

#### Z

Zinc, proteolytic inhibitory action of insulin and, 271

#### Book Reviews

*Administration and Supervision in Laboratory Medicine*, 101

*Atlas of Diagnostic Immunohistochemistry*, 897

*Bailey and Scott's Diagnostic Microbiology*, 101

*Endocrine Pathology Update*, 435

*Handbook of Diagnostic Endocrinology*, 757

*Manual of Laboratory Immunology*, 898

*Methodological Aspects of DNA Cytometry: Image and Flow Cytometry on Malignant Tumors of the Breast, the Endometrium, the Brain and the Salivary Glands*, 101

*Nervous System, Muscle and Eyes*, 262

*Pathology of AIDS*, 435

*Pathology of the Prostate*, 262

*Pathophysiology of Gastrointestinal Diseases*, 898

*Principles and Applications of Laboratory Instrumentation*, 262

*Surgical Pathology of the Breast*, 897

*Tumors of the Liver and Intrahepatic Bile Ducts*, 601

**Correspondence and Corrections**, 103, 264, 437, 602, 758, 900

**In Memoriam**, Bert F. Woolfrey, 896

**News and Notices**, 102, 269, 436, 437, 606, 761, 899

## INDEX OF AUTHORS

- Abbondanzo, Susan L., 103  
 Ablin, Richard J., 605, 759  
 Adelson, Mark D., 21  
 Adler, David, 222  
 Ahluwalia, Chandnish, 561  
 Ahn, David K., 125  
 Aiello, Antonella, 188  
 Alavaikko, Martti J., 194  
 Albeda, Fred W., 564  
 Albores-Saavedra, Jorge, 858  
 Albright, Robert E., Jr., 397, 418  
 Aldape, Kenneth D., 499  
 Almasri, Nidal M., 376  
 Anastasi, John, S22  
 Anderson, Garth, 87  
 Anderson, Robert E., S42  
 Andrión, Alberto, 675  
 Angeles, Arturo Angeles, 51  
 Ansell, Jack, 222  
 Ascher, Nancy L., 499  
 Ashton, Michael E., 242  
 Auer, G. U., 264  
 Austin, Richard E., Jr., S29  
 Aversa, Gregorio G., 188  
 Ayala, Alberto G., 13, 446  
 Bacchi, Carlos E., 454  
 Bailey, Ann, 460  
 Baiocchi, Josephine M., 778  
 Baldini, Carlo L., 82  
 Ballance, William, 828  
 Balogh, Karoly, 769  
 Barron, William, 247  
 Bartholoma, Nadine Y., 21  
 Basolo, Fulvio, 300  
 Batsakis, John G., 828  
 Battifora, Hector, 460  
 Bauer, Kenneth, 633  
 Beckstead, Jay, 561  
 Ben-Ezra, Jonathan M., 709  
 Benjamin, Denis R., 889  
 Benson, Neal A., 376  
 Berard, Costan W., 787  
 Beretta, Claudio, 218  
 Bernard, H. U., 638  
 Bernstein, Vanessa, 749  
 Bernstein-Singer, Marjorie, 561  
 Berti, Emilio, 188  
 Bertolino, Giampiera, 82  
 Bhargava, Vivek, 875  
 Bickford, Nancy N., 408  
 Birch, Douglas F., 234  
 Bissell, Michael G., 247  
 Blair, Tina M. H., 578  
 Blank, Mary, 6  
 Bledsoe, Mary C., 418  
 Bondeson, Anne-Grethe, 175  
 Bondeson, Lennart, 175  
 Bonenfant, Jean-Louis, 340  
 Bonetti, Franco, 454  
 Borowitz, Michael J., 526  
 Bosco, Elisabetta, 675  
 Bottles, Kent, 125  
 Bowie, Lemuel J., 781  
 Bradley, Nancy, 335  
 Bradlow, Basil A., 77  
 Braylan, Raul C., 376  
 Brigden, M. L., 267  
 Britton, Catherine T., S38  
 Brivio, Rinaldo, 218  
 Brock, Brenda, 526  
 Brousse, Nicole, 55  
 Brown, Roger W., S50  
 Bruner, Janet M., 844  
 Brunning, Richard D., 809  
 Brunt, Elizabeth M., 503  
 Bryan, Robert N., 719  
 Brynes, Russell K., 561, 802  
 Bundred, N. J., 903  
 Burke, Allen B., 315
